[7:12] Laney XXX: silly i know =P  
[7:13] Mit Charmann: not at all, do you think you spend more time in sl because of that?  
[7:13] Laney XXX: for sure  
[7:13] Mit Charmann: how do you see yourself in sl?  
[7:14] Laney XXX: umm...  
[7:14] Mit Charmann: I mean like how similar is your av to you rl you/  
[7:14] Laney XXX: i don't really know honestly lol...i have loads of friends, but i kinda keep to myself until approached

[8:51] Turterelle XXX: all over the world  
[8:52] Mit Charmann: wow, thats pretty impressive, you must have a hard time keeping them organised  
[8:53] Turterelle XXX: hard time - or pleasant time  
[8:53] Turterelle XXX: of course , I do not talk to everyone every day  
[8:53] Turterelle XXX: some I do not remember and their profil helps me to keep in touch  
[8:54] Mit Charmann: yes, sometimes I don't come on for a long time and I need to use the profile to remind me  
[8:54] Mit Charmann: Is this your only avatar?

[8:54] Mit Charmann: just the one?

[8:56] Mit Charmann: of course  
[8:56] Mit Charmann: do your avatars have different characters?  
[8:56] Turterelle XXX: Actually I like the LL houses  
[8:56] Turterelle XXX: like man or women  
[8:57] Turterelle XXX: no I am myself in SL  
[8:57] Turterelle XXX: I do not play a role  
[8:57] Mit Charmann: I haven't checked them out yet  
[8:57] Turterelle XXX: not yet  
[8:57] Mit Charmann: some people have alts for different roles, one is for work and another for entertainment  
[8:58] Turterelle XXX: yes .. could be so - not even thought of that situation yet  
[8:58] Mit Charmann: how do you see yourself in SL?  
[8:59] Turterelle XXX: as a matter of fact , I made an other shape  
[8:59] Turterelle XXX: looking like my own body .. in rl  
[8:59] Mit Charmann: go on..  
[8:59] Turterelle XXX: in order to see what I could wear  
[8:59] Turterelle XXX: or not  
[9:00] Turterelle XXX: and then eventually with the idea , of making the dresses , in RL  
[9:00] Mit Charmann: actually, thats a really good idea  
[9:00] Turterelle XXX: then , I also wanted to .. use my shape - to make an experiment  
[9:01] Mit Charmann: which was?  
[9:01] Turterelle XXX: as you know , I sell supplements . and als weight management products  
[9:01] Mit Charmann: yes, you were telling me before  
[9:01] Turterelle XXX: so I wanted to . - script . when you eat this or that your shape gets different  
[9:02] Turterelle XXX: one of my projects - to learn about it  
[9:02] Mit Charmann: Ahhh, kind of like a before and after  
[9:02] Turterelle XXX: yes  
[9:02] Turterelle XXX: and no  
[9:03] Turterelle XXX: it is to learn .. how to script . to learn how to eat .. and to see the result  
[9:03] Mit Charmann: ok, so more for education, both for you to learn lsl and for whoever uses it in the end  
[9:03] Turterelle XXX: but - then I have to learn - what will be true in which situation ..  
[9:03] Turterelle XXX: yes  
[9:04] Turterelle XXX: a goal  
[9:04] Mit Charmann: and do you use your avatar that has your shape much  
[9:04] Turterelle XXX: hm - good question , I prefer this one  
[9:04] Turterelle XXX: its also a goal !  
[9:05] Mit Charmann: as an ideal you mean?  
[9:05] Turterelle XXX: yes  
[9:06] Turterelle XXX: an ideal could be a goal  
[9:06] Mit Charmann: yes, I was just thinking I read a study, will have to find it for you...  
[9:06] Mit Charmann: where  
[9:07] Mit Charmann: people became more healthy after seeing a virtual representation getting more healthy  
[9:07] Turterelle XXX: would be gratefull to read it  
[9:07] Turterelle XXX: and I have heard of the .. a fitness center on sl  
[9:07] Mit Charmann: I will find it and send it on  
[9:08] Turterelle XXX: turterelle.XXX@gmail.com  
[9:08] Mit Charmann: I haven't heard of the fitness center  
[9:09] Turterelle XXX: an american guy .. called Cooper Macbeth told me this  
[9:09] Turterelle XXX: and I was in a conference where they talked about it  
[9:09] Turterelle XXX: lately I saw a message on a forum  
[9:10] Mit Charmann: cool, I'll have to check it out  
[9:10] Turterelle XXX: we can exchange .. on that behalf  
[9:11] Turterelle XXX: if you find it - or me ..  
[9:11] Mit Charmann: ok so you said about your list of contacts in sl, do you know people from RL here in sl?

[9:14] Turterelle XXX: to get , , rl people into SL, and teach them .. directly with objects  
[9:14] Turterelle XXX: and not with books  
[9:15] Mit Charmann: right, I see, why did you want to do it that way?  
[9:15] Turterelle XXX: immersive  
[9:15] Turterelle XXX: no travel costs  
[9:15] Turterelle XXX: no office costs  
[9:15] Turterelle XXX: easier to learn  
[9:15] Turterelle XXX: not easier to teach  
[9:15] Turterelle XXX: lots of work  
[9:16] Mit Charmann: yes, I have had classes in sl, not for language, but I get the idea  
[9:16] Mit Charmann: what do you think affects most your sl experience?  
[9:17] Turterelle XXX: when you talk about affects . do you mean . what am I missing ?  
[9:17] Turterelle XXX: 1) skills  
[9:17] Turterelle XXX: I do not know how to do most of the scripting - and .building  
[9:18] Turterelle XXX: what I still miss - is that someone tells you how to create .. I am kind of stuck in a wheel  
[9:18] Mit Charmann: when I say affect, I mean what  
[9:19] Mit Charmann: about sl do you like and what you dislike  
[9:20] Turterelle XXX: I like to meet people - but they are difficult to find .. lol - even if I have a long list of friends  
[9:20] Turterelle XXX: I like to go to conferences , mixed reality  
[9:20] Turterelle XXX: I prefer to be serious , then to go to clubs -  
[9:21] Turterelle XXX: even though I waked up yesterday to go to a club - which shows a rl club - in Zurich - I could go to  
[9:21] Turterelle XXX: in Rl  
[9:21] Turterelle XXX: and I will one day

yea sometimes... depends on their sense of humor, etc  
i like to find the silliest/weirdest sims i can...and just check them out. some pretty entertaining stuff on here.

amazing to think the time and thought that has been put into these places

the sex portion of it...i'm SO over being harassed for pixel sex. i should be allowed to have a 'sexy' avie without being sent dirty pics, etc lol

i like haning at Alt7

and hang at Hyde quite a bit...where i met my bf =P

it's an Indie rock club

yup...love finding new music!

yea...my friends and i think up random words and do a search for that word....first to come up with that word in the search, is the sim we go to lol

probably to my house =P

hang out there with friends

i have a friend that lives in

ohio...we keep in touch in sl alot

go to my little sl home and watch videos etc

they wanted me to work 4hrs in a

when no ones on... wasn't making  
any money

a few ways i guess  
sadly, i'll admit...i've used rl  
money lol  
sold old things for lindens  
and people sometimes will just  
give it away for whatever reason lol  
when i first joined...i told myself  
that i wouldn't waste rl money on  
sl was a strict rule of mine but i  
found something that i just HAD  
to have at the time  
i'm going to guess they like  
redheads?  
i have red hair in rl...well now i do  
lol  
would youl ike to see a pic?  
yup that'sme

I am not sure if I would [transfer in

most of my lindens went for the

which someone here just said my

but I dont care I think it looks  
good

i have noticed that most people  
dont talk to each other  
they just dont talk.  
you are the 4th person besides my

I awlays say hi to people,But  
maybe its a down with newbie

but my skin and clothes on this av  
are freebies thatI got when I first  
started  
the clothes are freebies  
i think girls have a better selection

these are the shoes my AV came

no I bought the earrings and

oh i just thought they were cute  
yes there is a buddhist sim that I

in London I see myself as me

in Gor Im a warrior

i am me...i couldnt even try to be  
someone else, i would fail

I have lots of accounts, all

yes, very different

different ages and genders

A few furry avatars, but not

generally furry

as is Dragon play... the role play

[time spent in sl]

it's quite variable

some days 6-8 hours, but i'll go

wow... 6-8 hours..i used to be like

i think its me having rez issues tonight  
[problems with rez and lag]  
yeah...totally annoying :(  
ganna relog. Brb

I think SL will be unstable for a few months, as they transition to HTTP delivery of textures, while leaving everything else through the LL protocol

i'm not 100% sure, thought I saw something about it, though

[using v2?]

JamieLynn XXX raises her hand

CJ XXX loves v2

Well, in this group, 5 of the gathered

Lea, CJ, B4n, Julijana, JamieLynn, everyone else seems to be running something else

The main thing I like about Viewer 2 is the better support for outfits  
laggy

^\_^

I thought they'd ported web-on-prim to Emerald/Phoenix? Not sure

maybe not, need to include flash player

[emerald viewer banned]

not banned yet

viewer 2 it is a faild

taken off the approved viewer list tho

<---- will use emerald till it dies

they won't make me eat that :D  
well yes they are jealous on emerald

left them look like noobs

my understanding is that the "Emerald" team (except for the naughty ones) got together and started Phoenix

1 technological

idk

i heard that rumour too Canton

So I'm running Phoenix, seems to look like Emerald to me bouncing boobs and all LOL

i mean, let's get down to what is \*important\*

lol Canton

lolll

so u like viewer 2 Canton? :)

u're grey to me [textures not visible]

well, between Phoenix and Viewer 2.1 there are features of both I miss

I like the radar, double click teleport, looks-at features of Phoenix/Emerald

its raining :(

Lucky you

I like the web-on-prim and outfit support in Viewer 2.1

you think?

i recommend 2.1 beta over 2.0

JamieLynn XXX loves the rain

emerald is the dad

you can have it JamieLynn....its always raining here :( weve had a couple of lovely days...but i think autumn arrived today

Emerald/Phoenix have built-in AO support, which is nice idea, but doesn't work well

hi there  
this is part of sim I can build on  
I am not good at it  
you get your mic  
295 u\$  
tier  
there you are  
how are you .. got a new  
microphon  
so we can do your survey with  
ease

hm -- decided not to get the sim  
waiting for a buyer  
to turn up  
because lots of money , I am not  
advanced enough  
will decide ... in a few

unemployed staff told me I was on  
a good way  
but - still it is too early for me ..

as soon as I have .. more skills , it  
will be .. a good try to have one  
btw I have skype to avoid these  
problems  
yes - it is very intrieging  
as you now know I am  
unemployed  
my projects are - Museum - Office  
- and Language school  
but voice is .. broken , might need  
to relog

and I paid for the tier , because I  
do not want to let it disappear  
I have been using SL for 2 y and 9  
month  
and only build up my network  
which is .. a long list of friends  
about 500  
all over the world

hard time - or pleasant time  
of course , I do not talk to  
everyone every day  
some I do not remember and their  
profil helps me to keep in touch  
no - I have an alt

1 peers

y  
just one .. for the moment  
I was thinking of taking a paid one  
which will be an other one  
but - wait and see for the moment  
having a LL house, and some more  
help - and get some "easy"  
lindens  
Actually I like the LL houses  
like man or women  
no I am myself in SL  
I do not play a role  
not yet  
[alts for entertainment] yes ..  
could be so - not even thought of  
that situation yet

as a matter of fact , I made an  
other shape  
looking like my own body .. in rl

in order to see what I could wear  
or not  
and then eventually with the idea  
, of making the dresses , in RL

then , I also wanted to .. use my  
shape - to make an experiment  
as you know , I sell supplements .  
and als weight management  
products  
so I wanted to . - script . when you  
eat this or that your shape gets  
different  
one of my projects - to learn  
about it  
yes  
and no  
it is to learn .. how to script . to  
learn how to eat .. and to see the  
result

but - then I have to learn - what  
will be true in which situation ..  
yes  
a goal

1 production

**Participant 4**

hm - good question , I prefer this one  
its also a goal !  
yes  
an ideal could be a goal  
and I have heard of the .. a fitness center on sl  
an american guy .. called Cooper Macbeth told me this  
and I was in a conference where they talked about it

1 peers

1 weconomic

lately I saw a message on a forum  
yes  
I have brought rl people to sl  
know them ... Personnaly  
and they are about to take language classes with me  
a few , I also have in skype  
but , I never met them live

1 peers

1 peers

hm . No  
languages I want to teach only in sl  
to get , , rl people into SL, and teach them .. directly with objects  
and not with books  
immersive  
no travel costs  
no office costs  
easier to learn  
not easier to teach  
lots of work

1 peers

skills  
I do not know how to do most of the scripting - and .building  
what I still miss - is that someone tells you how to create .. I am kind of stuck in a wheel

I like to meet people - but they are difficult to find .. lol - even if I have a long list of friends  
I like to go to conferences , mixed reality

I prefer to be serious , then to go to clubs -  
even though I waked up yesterday to go to a club - which shows a rl club - in Zurich - I could go to in RI  
and I will one day they film RL , and show it in SL on a screen  
www.dbc-tv.net  
[access sl?]  
laptop , home  
and I recently bought a new Laptop in order to take it to my sons, if necessary  
as I am /was addicted to SL he only - bad feeling I have , is when I go outside .. must always recongnise I am in a very nice surrounding  
I can spend 10 hours a day  
[on average?]  
6  
without .. an own spot  
and in parallel I have a second computer - books - etc  
yes I think it is " normal"  
and it could be rendable , .. a good investment  
[rendable?]  
ROI  
  
still - I have to learn lots of things with money  
lol  
but  
until now - I have earned my money on sl  
with classes -  
and shows  
I have had a model agency  
I will have to buy lindens soon  
and will use Paysafe card  
because I do not have a credit card

1 cultural

1 cultural

yes  
and I have even made rl money  
because I sold one of my products  
to an american guy  
I met in SL  
not much , its a start  
I even won a rl coffeemachine in  
SL  
on the internet  
I talked to him in SL  
and he decided to buy from my e  
business  
coffeemachine - is great  
got it for x mas 1 y ago  
works fine  
and - I bought a book , which was  
advertised in SL  
yes - kind of a competition  
one had to sit with friends - and  
have talks  
and you got points  
the one with the most pèoints ,  
got the machine  
Social Media Bible  
I have also met some native  
americans  
because I translate in rl for native  
americans  
in an association  
not yet met in rl  
not yet met in sl  
the sim is worth a visit

I went to a powow in rl  
since that time - I am intersted

I prefer to be serious , then to go to clubs -  
even though I waked up yesterday to go to a club - which shows a rl club - in Zurich - I could go to in RI  
and I will one day  
they film RL , and show it in SL on a screen  
www.dbc-tv.net  
[access sl?]  
laptop , home  
and I recently bought a new Laptop in order to take it to my sons, if necessary  
as I am /was addicted to SL  
yes I think it is " normal"  
and it could be rendable , .. a good investment  
[rendable?]  
ROI  
with money  
lol  
but  
until now - I have earned my money on sl  
with classes -  
and shows  
I have had a model agency  
yes  
and I have even made rl money because I sold one of my products to an american guy  
I met in SL  
not much , its a start  
I even won a rl coffeemachine in SL  
on the internet  
I talked to him in SL  
and he decided to buy from my e business  
coffeemachine - is great  
got it for x mas 1 y ago  
works fine  
and - I bought a book , which was advertised in SL
